

RoHS Compliance Declaration

SPEC Sensors, LLC is committed to environmental awareness and protection measures, and those is an integral part of our product quality and compliance measures. Accordingly, to the best of our knowledge, as ensured by material composition test reports and/or compliance declarations provided by suppliers and manufacturers, all electrical and electronic equipment (EEE) sold by the company are in compliance with Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (also known as "RoHS Recast") .

The products manufactured by SPEC Sensors do not contain the substances listed in the table below in concentrations greater than the listed maximum value.

2011/65/EU RoHS Recast Directive (RoHS 2.0)

Restriction of Hazardous Substance	Content of Compliance	
Lead – Pb	<0.1%	(1000ppm)
Mercury – Hg	<0.1%	(1000ppm)
Cadmium – Cd	<0.01%	(100ppm)
Hexavalent Chrome - (Cr+6)	<0.1%	(1000ppm)
Polybrominated Biphenyls – PBB	<0.1%	(1000ppm)
Polybrominated Diphenyl Ethers – PBDE	<0.1%	(1000ppm)

Please do not hesitate to contact us for additional information.
